

The SERIE ET roof centrifugal fans are especially suited to applications where it is necessary to suck clean air or fumes at temperatures up to 70°C. The base is produced in steel and the fan dome is produced in plastic reinforced by fiber glass.

These extractors, whose series consists of nine models suitable for extracting stale air from civil and industrial buildings and especially toilets, kitchens, etc ...

Each set consists of:

- Base, stands, motor support, and the safety net in galvanized steel
- Fiberglass protective dome
- Backward impeller made of steel sheet
